

Esangweni Secondary School

STATEMENT OF NEED

FINANCIAL CIRCUMSTANCES REQUIRING SPONSORSHIP

Esangweni Secondary School is in the dusty area of Khayelitsha where 60% of the population is unemployed. It is surrounded by RDP houses and informal settlement which is an indication that even those who are working are low income earners. The school is a no fee school because parents of this community cannot afford to pay school fees. Financially the school depends on government grant which is not enough at all. The financial constraints lead to shortages of number of resources which include learning resources and recreational facilities. Learning resources include computers, data projectors, whiteboards or interactive whiteboards etc. Recreational facilities which one wishes to have are sports ground, hall etc. Improvement of the aesthetic appearance of the building is also a need ,we started last by painting the outside of the building one wishes that painting can be done even inside the classroom where the actual learning is taking place. The aesthetic appearance of the building plays a big role in motivation of learners and staff at large.

STATEMENT OF DESERVING

A REFLECTION OF THE SCHOOL'S CULTURE AND COMMITMENT TO LEARNING

Learners and educators of Esangweni are really committed to learning. This is evident in the fact that they go an extra mile by having classes till late during the week. They even sacrifices their weekends. The average attendance for both educators and learners is around 95% even during this challenging time of COVID 19. Last year the results improve by 28% percentage from 41% to 69% The target this year is in excess of 80%.

STATEMENT OF WANT

REASON FOR SPECIFICALLY REQUESTING PAPER VIDEO

The school wants Paper Video because we believe that it can assist us a great deal in improving results given the situation our country is in. Presently learners need more individual attention. They also need support from their parents and educators for them to obtain good marks .We believe that with Paper Video our goal of improving the quantity and quality of results can be achieved. We want learners to be exposed to different ways in which a particular topic can be asked and answered. Learners will be able to learn at their own pace where they can repeat a topic or question until they master it.
