

Leap Science & Maths School

STATEMENT OF NEED

FINANCIAL CIRCUMSTANCES REQUIRING SPONSORSHIP

We recruit learners with potential to excel in Mathematics and Sciences but we are located in a poor community and serve learners from disadvantaged backgrounds. The school is mainly donor funded and our learners do not afford the basic necessities which are required for them to perform academically. Our school does not have a science laboratory and a number of our learners may have gadgets but do not afford data to connect to the web.

STATEMENT OF DESERVING

A REFLECTION OF THE SCHOOL'S CULTURE AND COMMITMENT TO LEARNING

The school has produced 100% pass rate at Matric for the past 5 years. Our learners, teachers and the school management is committed to excellence through hard work and effort. Through learner-centered teaching methodologies and approaches, our learners take responsibility for their learning. Life orientation at our school is really orientation to life and not just an academic discourse. We provide psychosocial support so as to ensure that the whole learner is educated. We encourage our learners to be responsible citizens and to take care of their communities through social development in their communities. Ours is a duty to positively transform our communities through the provision of meaningful education.

STATEMENT OF WANT

REASON FOR SPECIFICALLY REQUESTING PAPER VIDEO

The paper video resources will be very helpful in preparing for exams particularly in Maths and Sciences. Our past experience in the positive is very positive and will go a long way in preparing learners for assessments. The videos and the use of the code is helpful as the learner can replay the video until they understand. Paper video will definitely assist our learners to do well academically.
