

# Modderdam High School

## STATEMENT OF NEED

### FINANCIAL CIRCUMSTANCES REQUIRING SPONSORSHIP

The school serves education to more than a thousand youth from Bonteheuwel and the surrounding areas Kalksteenfontein, Montana, Netreg and as far as Phillipi. Given the communities situation of unemployment, gangsterism, drugs and other social ills and more recently the fight against Covid-19, Modderdam High is on a continuous drive to improve the lives of our youth, our community. Knowing the challenges youth of the community faces, effective teaching and learning becomes a major challenge. However, our core objective and responsibility as a public school situated in this challenging area still remains the same, as for any other school in an affluent area.

## STATEMENT OF DESERVING

### A REFLECTION OF THE SCHOOL'S CULTURE AND COMMITMENT TO LEARNING

The Management, staff and SGB (School Governing Body) are on a continual quest to change our situation into a school that can contribute positively to the community it serves. In fact, we, the management together with the ICT team understands how critical it is to perform under difficult circumstances – we need to produce excellent teaching and learning despite our situational contexts – under Covid-19. It is of no small wonder that our teaching and learning are under an enormous amount of pressure when it comes to the integration of technology in our teaching and learning.

## STATEMENT OF WANT

### REASON FOR SPECIFICALLY REQUESTING PAPER VIDEO

We are forced to integrate and be innovative in teaching and learning in the 21st century classroom. We, completely understand the huge contribution technology can make to the lives of the disadvantaged and the impoverished and even more so under the critical situation of Covid-19. We are aware of how resourceful Paper Video can be, to teaching and learning, and we certainly like to be part of this exciting imaginative action. We recognize the positive effects of these kind of projects with regards to improving the culture of teaching and learning especially when it comes to Mathematics and Science and beyond.
