Quantifying Risk, Enabling Opportunity.

The Next Wave of Insurance

The Next Wave of Insurance

1. Would you like to see more insurers offering real time responses, satellite imagery as well as predictive analytics resulting immediate pay-outs?

Real-time Responses

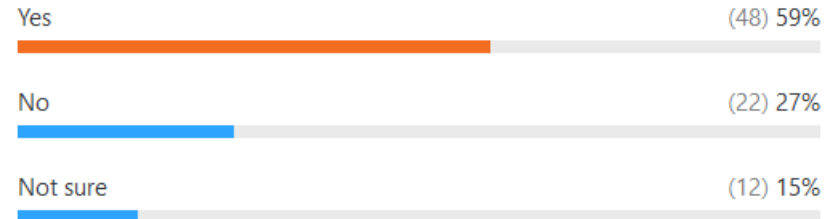

1. Advanced analytical techniques
2. Measure and price risk in real time
3. Tailored risk prevention services

Digital Sales Channels

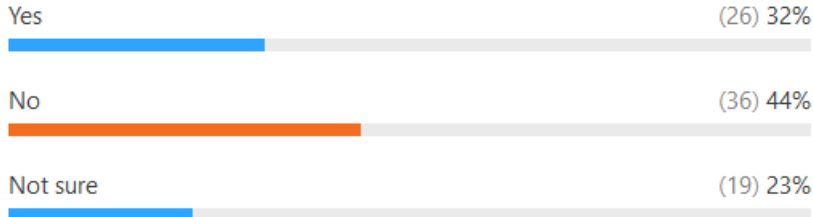

1. Seamless digital experience
2. Learn customer preferences through machine learning
3. Anticipate customer needs

1. Would you be keen on using technology driven distribution channels like chatbots to buy insurance cover compared to traditional distributions?

1. Would you be motivated to leave your insurer if they were not incorporating up to date tailored technology (like telematics) as part of the customer journey?

Reinventing the Insurance Model using Technology

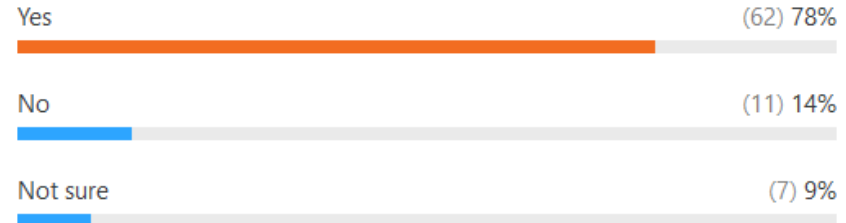

1. Cloud based product offerings
2. Plug and Play feature
3. Increased customization

On-demand pay-as-you-go Insurance

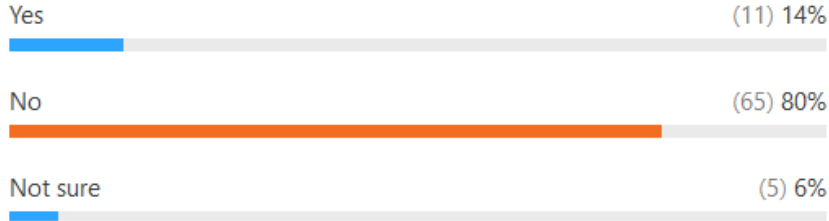

1. Tailored usage based insurance
2. Increased price transparency
3. Flexibility to adjust cover as necessary

1. Do you consider on-demand pay-as-you-go insurance an attractive feature to have?

1. Have you been a victim of a repeat cyber-crime?

1. Can (silent) cyber be considered a 1 in 200 year event?

Cyber Risk Protection

1. Hacks, identity theft or data breach
2. Cyber risk management and security
3. Silent cyber
