

Update on September communication send out earlier this week.

Purchasing of study notes for A311 - Actuarial Risk Management

A311 will use **THE SAME STUDY NOTES** as current (2018) for 2019.

The 2019 IFoA curriculum with South African localisation material will only be implemented in 2020 for this 1 subject only.

Study Notes for 2019 can still be purchased from ActEd. ActEd will make the current CA1 notes available to ASSA students for next year. (In time ActEd will rebrand the notes to A311)

Buying A-level Study Notes for 2019

The introduction of the new curriculum has resulted in a re-structure as well as various degrees of updates to all the A-level subjects' study notes. **We therefor recommend that you do purchase NEW NOTES (except A311).** ActEd indicated that re-taker discounts will still apply.

Please refer to the **table below that indicates which codes you will have to use to purchase your notes** from ActEd at: <https://www.acted.co.uk/>
