

Tuition Support Options

Tuition Support Options

The Actuarial Society of South Africa (ASSA) will be running **tuition support sessions** to help you prepare for the F2 series and B200 examinations. There are two different support offerings: **Real-time tuition support** and an **Online Marking Option**

Real Time Tuition Support

The presentation of this course will be based on the principles **of adult learning** where you need to take full responsibility for your learning. The Course Leaders will facilitate learning, but actual learning will depend on your own effort. The Course Leaders will cover key aspects of the course, but it is your responsibility to ensure that you cover the full syllabus requirements that includes wider reading.

The course structure includes the following:

- Between 20 and 25 hours of contact time which includes discussion of course content, current topics, past exam question review and discussion points.
- Marked assignments of around 300 marks in total with additional discussion questions discussed and self-marked.
- A mock exam and group feedback session.

The Course Leader is a senior fellow actuary and has both an academic background and is also a specialist in the field. The Course Leader will provide guidance on resources that should be consulted and may provide a schedule for knowledge preparation before the scheduled seminar.

Assignments:

The course will have assignments that students should attempt and submit for marking. Feedback will be given on your submitted assignments.

Mock Exam:

All mock exams will be written under exam conditions online and all examinations rules will apply. You are reminded to log in to your examination 30 minutes prior to the exam start time. You will receive reading time as allowed in the examination instructions. All candidates will receive feedback on their papers. The feedback will be done in a group and candidates will have the opportunity to ask questions.

Interactive web-based learning:

The course leader will make use of the ASSA Online learning platform which can be accessed at the following link: <http://assaed.actuarialsociety.org.za/>

The platform allows you to access the following:

- Lecture notes
- Additional reading
- Online discussion forums and chats
- Electronic interactive sessions

Successful completion of the course will include active participation in the course and interaction with the above online activities.

Once registration has closed, you will be given access to the ASSA online Learning Platform where you will receive all relevant information and assignment deadlines.

Online Marking Option

It consists of 3 x 100-mark assignments based on past papers with marked feedback and a Mock Exam with marked feedback to improve the students approach in answering questions and exam technique leading up the examination.

Note that the marked option does not replace the tuition real-time support option currently offered but will be an additional resource you can utilise if you wish to not attend the real time sessions.

Registration

All students who are interested in enrolling for any of the above tuition support offerings must please make use of the online registration facility.

Please note that your registration will remain pending a confirmation of the entrance requirements being met.

- A letter / certificate confirming your Associate or Fellow designation from the institution must be emailed to: assaadmin@actuarialsociety.org.za before registration closes.

PLEASE ENSURE THAT YOU HAVE REGISTERED FOR THE ACTUAL EXAM.

The actual exam is not included in the tuition registration; you must enter yourself for the examination via your member profile. If you have not received a proof of registration or pending registration you have not been registered and ASSA cannot accommodate late registrations outside of the registration period.

Once registration has closed, you will be given access to the ASSA online Learning Platform where you will receive all relevant information and assignment deadlines.
