**IN MY VIEW, THE BIGGEST CHALLENGE FACING THE ACTUARIAL SOCIETY AT PRESENT IS:**

To continue to stay relevant and have a meaningful impact in a constantly evolving environment – ensure our voices are heard in important conversations such as climate change and net zero, a post-COVID South Africa, while ensuring we transform our industry to reflect our diverse society.

**IF ELECTED TO COUNCIL, I SHALL TRY TO:**

Continue to encourage life-long learning and developing a growth mindset. I'll continue to assist research efforts and sharing of insights to the industry so that we can all learn from each other. I'd like to encourage and emphasize the importance of looking after the mental wellbeing of all our members and wider society, especially in the current environment.
