

Hello... an exciting new opportunity has just become available in our **Hollard Insure, Risk and Underwriting area**. We are looking to recruit an **Actuarial Analyst**.

## **Role Objectives:**

- To support the Hollard Insure Commercial Pricing team in servicing the various product portfolios through pricing, product development, portfolio monitoring, MIS and technical assistance.
- The range of products include but are not limited to:
  - Commercial short-term products
  - Corporate short-term products
  - Specialised short-term products

## **Key Responsibilities:**

### **Business Development**

- Contribute to the implementation of the Hollard Insure Commercial Pricing strategy
- Contribute to the overall effectiveness and delivery of work within the Commercial Pricing team
- Develop and maintain strong working relationships between the team and related internal and external stakeholders, in particular the Underwriting and IT teams.

### **Process**

- Assist with the Design and Pricing of New and Existing Products
  - Conduct on-going review and monitoring of pricing of products
  - Measure and monitor the relevance of existing rates
  - Data manipulation and provide regular data analysis requirements
  - Support system implementation of new products
  - Support experience monitoring of existing portfolios
  - Conduct analysis of the competitiveness of existing and new products
- Generate and review product documentation for new and existing products
  - Liaise with underwriting and IT to develop product specifications
  - Support sales teams with technical marketing queries
- Assist with testing and specification of system setup for products
- Product monitoring and reporting
- Produce Management Information to support decision making

## **Required Knowledge, Experience and Skills:**

- Statistical software experience
- Experience in building actuarial models
- Advanced MS Office
- Technical pricing experience (Generalised Linear Models) and SQL would be an advantage
- Capable of learning new systems quickly with appropriate attention to detail
- Experience in system interfaces/integrations.
- Business/Short Term insurance knowledge
- Project management skills would be beneficial

## **Educational Requirements:**

- Tertiary Actuarial Qualification
- Progress in completing CT's (minimum 5 CT's preferred)
- Studying towards becoming a Qualified Actuary

**Closing date: 16 April 2018**

Applications or enquiries may be sent to **Nomsa Maseko** on [Nomsama@hollard.co.za](mailto:Nomsama@hollard.co.za) or **011 351 1999**.

*"Applications for this role will be prioritised in line with our transformation objectives as per our Employment Equity Plan"*
