

Actuarial Analyst – ALM and Valuations

Job specification

November 2022

JUST.

RETHINK RETIREMENT

Just Retirement Life (South Africa) Limited (Just) is looking for an Actuarial Specialist to work within the Asset Liability Management and Valuation teams. Just is a relatively new insurer in South Africa offering innovative retirement income solutions. The company's foundation is deep mutual respect and trust for one another in a dynamic, small team environment. Each person is respected as a key individual who is expected to challenge complacency and whose opinion is valued. The team is united by a common desire to create a legacy in a niche market and share a commitment to deliver performance against measurable set objectives. All staff share in Just's value creation and hold one another accountable for performance in a flat organisational structure.

Roles & responsibilities

Primary responsibility will be to run the daily Asset Liability Management (ALM) process

Execute the ALM on a daily basis, including:

- Operating the ALM system
- Ensuring timely execution of trading orders within a given risk appetite
- Development and improvement of hedging strategies and sourcing of appropriate financial instruments
- Providing input to the management team from a hedging and capital modelling perspective
- Compiling and developing relevant reporting
- Automating and documenting processes

Requirements

- Excellent verbal and written communication skills
- Strong analytical and conceptual thinking
- Strong technical and computer skills
- Excellent stakeholder management skills
- Ability to work independently and take initiative
- Advanced Excel skills

Qualifications

- Actuarial degree

Please send a copy of your CV that clearly demonstrates how your knowledge, skills and experience meet the requirements of this job specification to careers@justsa.co.za. Closing Date - 21 December 2022.
