

# JOIN OUR TEAM

We are seeking diverse, bright-minded life and short-term insurance actuaries and actuarial students to join our dynamic team in South Africa.

We combine the expertise of our local offices with that of our colleagues across the world to provide global consulting solutions to our clients. Our service offerings include risk and capital management, financial reporting, product development and new market entry.

We are seeking individuals with the following experience and skills:

## LEVEL 1: STARTING YOUR CAREER

- 1 to 2 years of relevant experience
- Client-facing experience would be an advantage
- Good verbal and written communication

## LEVEL 2: GROWING YOUR CAREER

- 4 to 7 years of relevant experience
- Client facing experience would be an advantage
- Excellent verbal and written communication

## LEVEL 3: INFLUENCING THE DIRECTION OF THE BUSINESS

- Qualified actuary
- 5 years of post-qualification experience
- Client facing experience
- Practicing certificate in short-term insurance would be an advantage
- Strong relationship building
- Self-awareness
- Motivating, leading and growing a team
- Effective delegation and project management
- Excellent verbal and written communication

For more than 70 years, Milliman's objectivity and rigorous standards of professional excellence have made us the leading independent actuarial firm. Our unique structure fosters collaboration among employees regardless of seniority, which results in better results for our clients. Our reputation for excellence attracts challenging projects and some of the best assignments in the business, providing Milliman employees with unique opportunities to become leaders in their fields.
