

JOIN OUR TEAM

We are seeking diverse, bright-minded life and short-term insurance actuaries and actuarial students to join our dynamic team in South Africa.

About Milliman

For more than 70 years, Milliman's objectivity and rigorous standards of professional excellence have made us the leading independent actuarial firm. Our unique structure fosters collaboration among employees regardless of seniority, which results in better results for our clients. Our reputation for excellence attracts challenging projects and some of the best assignments in the business, providing Milliman employees with unique opportunities to become leaders in their fields.

About Milliman South Africa

Our offices in Johannesburg and Cape Town provide coverage across sub-Saharan Africa, focusing on life, non-life and microinsurance.

We combine the expertise of our local offices with that of our colleagues across the world to provide global consulting solutions to our clients. Our service offerings include risk and capital management, financial reporting, product development and new market entry.

Role

We are seeking individuals with the following experience and skills:

- Nearly/recently qualified actuary
- 4 to 7 years of relevant life or short-term insurance experience
- Client facing experience would be an advantage
- Excellent verbal and written communication
