

More than just a number

Exciting opportunity in MiWay's Actuarial pricing team

At MiWay we have created a well-rounded, innovative and flexible actuarial department with a common goal of adding value to the company by finding solutions to business problems. Supported by a down-to-earth culture, every member of our team has both the freedom to explore new approaches and the responsibility to implement their own contributions.

Our approach is data-centred and we place a high value on quality data to ensure informed decision making.

If this sounds like an environment you would be interested in, we invite you to apply for this new opportunity in the personal lines pricing team.

Key requirements

- Actuarial (or equivalent statistical/mathematical) degree with at least two years of experience in pricing of financial services products. Preference will be given to candidates with experience in short term insurance pricing.
- A keen interest in technical actuarial work
- Creative problem-solving ability
- Experience in SQL and PL/SQL will be beneficial.

MiWay is committed to achieving transformation and embraces diversity. This commitment is what drives us to achieve a diverse, inclusive and equitable workplace as we believe that these are key components to ensuring a thriving and sustainable business in South Africa. MiWay's Employment Equity plan and targets will be considered as part of the selection process.

Applicants can email their CV and a short introduction letter to **actuarial.careers@miway.co.za** before the 9th of October 2019.
