

## Congratulations to all our new Fellow qualifiers

The Actuarial Society of South Africa congratulates the following on being admitted as Fellow members.

Through the completion of the academic exams as well as the professionalism, work based learning and other normative skill requirements, we recognise the hard work that it takes for our members to reach this significant achievement.

We share in your excitement as you advance in your careers and shape the future of the actuarial profession in South Africa through active participation as qualified actuaries and members of ASSA.

All of the best!
